EFFICIENCY

United Way volunteers assess community conditions and identify needs. In the Spring, volunteers review applications to direct funds to programs addressing our community's most critical needs and core services.

ACCOUNTABILITY

Volunteers contribute to the success of United Way from the ground up. Committees guide our actions and strategies. Vision Councils evaluate community needs and a diverse group of community volunteers evaluate program applications to make funding decisions. Finally, our Board of Directors oversees the whole organization to ensure the entire process is efficient and effective.
