LEADING THE WAY

Day in and day out, your generosity supports programs that meet the most urgent needs in our community. We're proud of all we accomplished together in 2023 including:

Children and teens accessed **9,973** individual counseling sessions.

Supplemental food packs distributed to **685** children through Nutrition On Weekends.

Mentors supported **403** vulnerable youth.

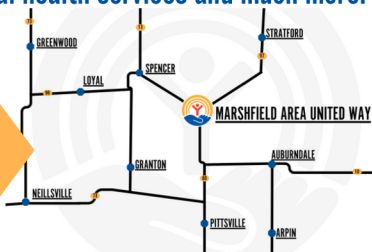

Food assistance was secured by **1,130** households.

6,789 nights of safe shelter provided to individuals and families.

743 senior and disabled residents received supportive services to continue living independently.

And we're not stopping there. Your support will help to continue tackling the biggest challenges people in our community are facing, from basic needs to helping youth reach their full potential to accessing mental health services and much more.

OUR SERVICE AREA

Jessica's Story

Jessica started counseling due to strained relationships with her parents, one of whom was an alcoholic. Weeks into treatment, her parent died. Jessica had even more significant stressors occur, on top of working and going to school. Her stress level was so high she would just cry from being so overwhelmed; thinking about life after high school was paralyzing for her at times. She had a limited support network around her to process life decisions and was fearful of losing the positive supports she did have at the high school.

The school social worker involved in her case took the time to help her find a therapist who was a good fit with her. Jessica has shown so much strength and courage and has continued counseling. She is finally out of survival mode and able to continue to process her grief. She has done so much hard work processing her feelings and remains committed to moving towards more healing and growth.

Maria's Story

As a foster parent, we love providing a loving, caring and safe home for children. However, groceries are expensive, especially healthy items. With the NOW program, my children have a few healthy meals available to them. Plus, it gives me a little more time to just spend with them on the weekends, rather than trying to figure out how I am going to give them a balanced meal when funds are low.
